SESSION	DATE & HOURS	MODULES	HOURS	STUDENT SIGN	STAFF SIGN
01 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	Introduction to the CATIA surface (generative shape design) Modeling Process • Understanding GSD CATIA Concepts • Wireframe and surface DESIGN. • Introduction of surface design. • Understanding of wire frame tool bar. • Point, point and planes reptation • Line,axis,polyline. • Plane, planes between. • Projection, intersection. • Creating surfaces. • Extruded surface definition. • Revolve surface definition. • Sphere surface definition. • Using trims and split Tools • Understand the tools and • applicable in given inputs.			
02 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Creating surfaces • Cylinder surface definition. • Offset surface definition. • Fill surface definition. • Multi section surface definition. • Blend surface definition. • Understanding operation toolbar. • Join, healing, • Untrims,disassemble. • Extract, Multi extract, boundary, • Transformation tool bars.			
03 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Introduction of sweep surfaces. • Sweep surface definition. • Adaptive sweep definition. • Creating sweep surface definition. • Explicit sweep surface. • Line sweep surface. • Circle sweep surface. • Conic sweep surface. • Practice: Understanding and apply the sweep concepts in the given inputs

SESSION	DATE & HOURS	MODULES	HOURS	STUDENT SIGN	STAFF SIGN
04 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Introduction of plastic trims. • Basic introductions of plastics. • Basic introduction of GSD tools, • Basic introduction of draft analysis, • Basic introduction of core and cavity concepts.			
05 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Introduction of core and cavity concepts. • Basic introduction of core and cavity concepts. • Basic introduction and purpose of main tooling direction, • Introduction of slider and lifter concepts • Basic introduction of parting line and parting surface			
06 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Introduction and study of given inputs. • Study the given inputs. • Analyze the given inputs. • Check the draft analysis in given A class. • Creating main tooling direction. • Understanding and study of given master section and section study			
07 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Verification of given inputs. • While errors occur in given a-class, • make an proposal. • Practice snips& ppt with proper content.			
08 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Creating B&C surfaces. • Making B-side offset. • Clear patch works in b-Surfaces. • Making an C-surface with respect to tooling direction/surrounding • data's/master section • Clear draft analysis.

SESSION	DATE & HOURS	MODULES	HOURS	STUDENT SIGN	STAFF SIGN
09 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Introduction of engineering features. • Basic introduction of Eng. Features. • Usage of Eng. Features. • Merits demerits of Eng. Features. • Creating Eng. Features w.r.to. master section/surrounding data's/section study. • Clearing the undercuts(slider/ lifter).			
10 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Introduction of F&F concepts. • Basic introduction of fit and finish. • Understating the concepts in given inputs. • Practice: Understanding and apply the F&F concepts in the given inputs.			
11 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Introduction of Gap/ Flush concepts. • Basic introduction of Gap /Flush. • Understating the concepts in given inputs. • Practice: Understanding and apply the Gap/ Flush concepts in the given inputs.			
12 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Introduction of Flange&In-Row concepts. • Basic introduction of Flange&In-row. • Understating the concepts in given inputs. • Practice: Understanding and apply the Flange/ Inrow concepts in the given inputs.			
13 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Introduction of Plastic Defects. • Plastic defects concepts and demerits. • Ball radius • Sink mark • Shrinkage. • Warpage. • Void. • Shot shot.			

COURSE **COMPLETED**
