	CLASS TIMING			STAFF NAME	

SESSION	DATE & HOURS	MODULES	HOURS	STUDENT SIGN	STAFF SIGN
01 SESSION	DATE : _____	• Introduction to 3D modeling • Introduction to CAD, CAE, PDM • About Solid Works • Various products available in Solid Works for Product design, Simulation and Communication • Solid Works GUI, Feature manager, Callouts, Handles, Confirmation Corner Mouse buttons, Keyboard shortcuts & Command Manager • 2D Sketching • Features of Solid Works, File conversion, Sketch entities • Inference line, Centerlines line • Line, Circle, Arc, Ellipse, Rectangle, Slots, Polygon, Spline • Points, Text, Construction geometry, Rapid Sketch, Snap, Grid, Trim Extend • Sketch modify • Fillet, Chamfer, Offset, Convert entities, Split, Jog, Mirror, Move, Copy, Rotate, Scale, Stretch, • Close sketch to model, Sketch picture, Area hatch/Fill, Sketch pattern, Blocks, Relations, Automatic relations Dimensioning, • Fully define sketch, Sketch diagnosis, 3D Sketching			
	IN TIME : _____				
	OUT TIME : _____				

	STUDENT NAME			COURSE NAME	SOLIDWORKS

	CLASS TIMING			STAFF NAME	

SESSION	DATE & HOURS	MODULES	HOURS	STUDENT SIGN	STAFF SIGN
01 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Reference geometry • Creating reference planes • Boss/Base & Cut features- Extrude, Revolve, Swept, Loft • Selecting geometries, Multiple bodies • Creating reference - Points, Axis, Coordinates • Curves • Split, Project, Composite curve, Curve through point • Helix and spiral • Chamfer, Shell, Rib • Pattern-Linear, Circular, Sketch driven Curve driven, Table driven, Fill pattern, Mirror			
02 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Fastening features • Vent, Working with views and manipulating views, Trouble shooting, Library feature Configuration • Design table, System options Measuring geometries • Mini Project • 3D Modeling for Industrial drawing			
03 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Assembly • Assembly approaches • Standard mates • Advanced mates • Mechanical mates • Smart mates • Mate reference • Assembly tools • Replacing, Rotating, Move Components, Assembly pattern and Mirror, Explode views • Physical simulation top down design-layout sketch. • Part in the context of an assembly smart components, smart fasteners

	CLASS TIMING			STAFF NAME	

SESSION	DATE & HOURS	MODULES	HOURS	STUDENT SIGN	STAFF SIGN
04 SESSION	DATE : _____	• Sheet metal designing • Concepts in Sheet metal design • bend allowance, bend deduction, K-factor • Base flange, Sheet metal tab, Edge flange, Miter flange, Hem, jog • Break corner/corner trim, Closed corners, rip • Sketched bend, fold/unfold, Forming tools, cross break, Welded corner, Lofted trim • Conversion of solid body to sheet metal, Importing in Solid Works, Editing imported features • Feature recognition, 2D - 3D conversion			
	IN TIME : _____ OUT TIME : _____				
05 SESSION	DATE : _____	• Drafting & Detailing • Sheet format • Creating dimensions • Model dimensions • Auto dimension • Dimxpert, Smart dimension, Working • Drafting • Datum features • Geometric tolerance • Surface finish • Jog leader, Hole callout, Datum target • Dowel pins, area hatch, Cosmetic thread • Balloon, Centre mark, Centre lines, Layers, • Working with tables • Bill of materials • Hole table, sheets and templates			
	IN TIME : _____ OUT TIME : _____				

	STUDENT NAME			COURSE NAME	SOLIDWORKS
	REGISTER. NO			TOTAL HOURS	80 HRS

SESSION	DATE & HOURS	MODULES	HOURS	STUDENT SIGN	STAFF SIGN
06 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Surface designing • Surface tools – Extrude, Revolve, Swept, Loft, Boundary surface, Planar surface • Offset surface • Radiate surface • Extending a surface • Surface fill, Ruled surface • Trimming surface • Mid surface, Replace face • Delete face, Untrim surface, Knit surface • Thickening a surface, Move face • Mini Project • 3D Surface Modeling of Real-time components			
07 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Reverse engineering • 3D modeling and drafting (from Industry component)			
08 SESSION	DATE : _____ IN TIME : _____ OUT TIME : _____	• Weldment • Introduction to Weldment • 3D sketch • How to create user defined profile for structural member? • How to insert structural member? • How to apply gusset and fillet bead? • How to insert end cap? • Extruded Boss/Base • Trim/Extend, Mirror, Placing holes • Using different structural members • Weldment cut list			

COURSE **COMPLETED**
